

FlexiLine Endoscopes

FlexiLine scopes are low cost system built telescopes that do not compromise the quality of the product and the optical and sealing quality is equal to the RB Medical standard Endoscopes. Optical modules are pre-focused and sealed in highly monitored cleanroom conditions. The finish and sealing of all RB Medical endoscopes ensures the integrity of the product.

What you will get from a new *FlexiLine* endoscope

- Perfectly balanced lens system
- Factory focused to give best picture quality
