

MedGyn Pessary Case

Pessaries are an effective device for the non-surgical treatment of a variety of urogynecologic problems. Commonly used in management of pelvic support defects, pessaries are also used to treat stress urinary incontinence. MedGyn offers an extensive line of quality silicone pessaries in a comprehensive pessary case.

Features & Benefits

- Multiple types of pessaries for a variety of medical scenarios
- A set of ring pessaries that can be used as a fitting set
- Pessaries made of comfortable flexible medical-grade silicone
- A convenient and stylish pessary case
- There are 28 pessaries in the Pessary Case
