### **Key Benefits:**

- Longer lengths are ideal for bariatric patients
- Wide range of available options
- Can aid/ease administration of anaesthetic
- Helps patient comfort
- Convenient and easy to use

Our extensive range of gynae syringe sizes and types ensures all needs can easily be met. We have both side loading and top loading options available, a variety of lengths and spiked or non spiked depressors. The extended length of these syringes will aid the administration of anaesthetic during gynaecology procedures, improving management of patient care and comfort.

RB Medical have a large range of syringes available. If you don't see what you're looking for please contact your local area manager who will be more than happy to see what we can do to help.

Our syringes provide a high quality cost effective solution for your surgical needs - if you wish to discuss options available for this product please see our website or contact your local representative.

As a company we have the most exacting standards and comply to the following safety and quality standards.

- Complies to regulations ISO 13485 & ISO 9001
- UK engineered to exacting standards
- Complies to the Medical Device Directive (MDD)
